

Name: _____

Due: _____

FT alternative Project:
Forensic Science Historic Timeline Project
(20 points)

Objective: Learn in detail some of the history of forensic science from historic timeline video (i.e. search **forensic science timeline** on Youtube) or other resources. Research at least four events of interest in a particular topic of your choice. Your textbook covers the history of different type of analysis/topic in the beginning of each chapter. You can use these as your sources as well.

Paper requirement listed below:

- Use the timeline template and timeline card template provided.
- You need to complete at least four cards. 5 point each.
- Write a short summary of the historic event or forensic technique developed on each card. Include:
 - Persons involved
 - dates
- Draw or paste a picture related to the event/technique on the card.
- Tape/past your cards on the timeline template.
- You will graded on completeness of your project.

Total points earned: _____/20
