

Drug and Cell Communication Pathway Project

Please describe a cell response pathway about a drug/medication of your choice.

Drug: _____ Teacher approval: _____

What is required in the write up?

- a) Specific symptoms of the illness. Be sure to include specific cell types/tissue that are involved in the illness.
- b) Explain the reception, signaling molecules involved in the pathway. Discuss the secondary messengers involved if needed. Please include a picture/diagram to explain the cell communication pathway.
- c) What is the response of the cell? What cells are involved? Which system is involved?
- d) Need pictures!!!! You will present this to a group of students.

Drug Project Discussion

Symptom	Drug	How does it work?
